BEHIND THE WHEEL

If you were born in Poland or have ever set foot in this car-loving country, there's no way you haven't heard of the legendary Fiat 126p, affectionately called "Maluch" (which means "Little One"). This tiny machine was more than just a car - it was a symbol of an era, a dream on four wheels, and a piece of Polish history on asphalt.

The Fiat 126 made its debut in 1972 in Italy, but it was in Poland that it truly made history. Produced under license at the FSM factory in Bielsko-Biała and later in Tychy, the Polish version - Fiat 126p - rolled onto the streets in 1973. With its boxy shape, air-cooled, rear-engine, and a whopping 23 horsepower (on good days), it wasn't a speed demon, but it was affordable. And that mattered the most.

In communist Poland, owning a car was a luxury. It wasn't enough to have money - you needed the right connections, patience, and sometimes sheer luck. People would wait years for their Maluch to arrive, often buying it through a government savings plan. Families treated the purchase like winning the lottery! Imagine finally getting your hands on a car after waiting five or even ten years. Some would even buy one and leave it untouched in the garage for resale at a profit later.

Despite its small size, the Maluch played a big role in Polish society. It became a trusted companion for road trips, a means of getting to work, and even an impromptu moving van when needed. Countless Polish families have

memories of stuffing their 126p to the brim - kids, luggage, a dog, and sometimes even furniture - proving that necessity truly is the mother of invention. It was also the perfect city car, able to squeeze into the tightest parking spots before "compact" was even a buzzword.

The Fiat 126p became a legend because it mobilized a nation. Before Maluch, car ownership was a privilege of the few. The 126p put ordinary Polish families on the road. It was practically indestructible - it could break down frequently, but with basic tools and some ingenuity, you could fix it yourself. No fancy electronics, no complex systems - just pure mechanical simplicity. It also became a cultural icon. From family road trips to being a movie star (featured in countless Polish films), the 126p was more than a car; it was part of everyday life.

By the late '90s, the Maluch was showing its age. With Poland opening up to Western cars, people slowly moved on to bigger, faster, and more comfortable vehicles. The final Polish Fiat 126p was produced on September 22, 2000. But nostalgia never dies - restored Maluchs are now collector's items, and they even have their own fan clubs.

Even today, people race them, modify them, and take them on ridiculous adventures across Europe. So next time you see a Fiat 126p going down the street, give it a nod of respect. It's not just a car. It's history on wheels.

ANGIELSKI BEZ WYMÓWEK

Kurs języka angielskiego dla dorosłych

Cześć! Nazywam się **Kamil Szostak** i mam jedną super moc: potrafię sprawić, że dorośli zaczynają mówić po angielsku - i to bez rozpisywania czasów na tablicy. Mój kurs, **Angielski Bez wymówek** jest wyrazem buntu przeciwko nudnym podręcznikom i wiecznie powtarzającej się terminologii, która straszy "mam to powiedzieć w Present Perfect czy Past Simple?".

Na moich zajęciach nie musisz się nad tym więcej zastanawiać. Musisz chcieć coś powiedzieć - a ja pokażę Ci jak. Uczę dorosłych mówić po angielsku z luzem, z sensem i w Twoim tempie. Na lekcji skupiamy się na tym, co chcesz powiedzieć, a nie na tym, co „powinieneś już umieć”.

Nie musisz być idealny. Wystarczy, że jesteś gotów spróbować jeszcze raz - ale tym razem po swoim. Bez presji. Bez stresu. **Bez wymówek.**

Rozmawiamy o prawdziwych rzeczach. Czasem niewygodnych. Czasem zabawnych. A jeśli trzeba - pokłócimy się, ale zawsze po angielsku. Zacznij naukę Bez wymówek, bo największą wymówką do tej pory było to, że nikt Cię wcześniej tak nie uczył. Stworzyłem tę szkołę, aby pokazać, że naprawdę da się inaczej.

Tu nie ma miejsca na wymówki.

Jest za to miejsce na Twój rozwój.
